PROFESSIONAL SUMMARY

Telecommunications Engineering undergraduate with a strong foundation in networking, systems thinking, and cybersecurity, plus hands-on Python and web development skills. Currently building AI/ML knowledge through self-directed study, with a passion for creating AI-powered websites that provide real value and solve practical problems. Seeking an AI internship to contribute analytical thinking, rapid learning, and a commitment to building useful, human-centered technology.

TECHNICAL SKILLS

- **Programming & Development:** Python, Web Development
- **AI/ML Foundations (Self-Directed):** Machine Learning concepts, data preprocessing, model evaluation, AI API integration
- **Security:** Cybersecurity, Security Software Development
- **Telecom & Networking:** PCM, signaling, VoIP, network systems
- **Currently Learning:** [Python, HTML, CSS & JavaScript

EDUCATION

Sir Syed University of Engineering & Technology (SSUET), Karachi

BE, Telecommunications Engineering — 2023 – 2027 (in progress)
Relevant Areas: Networking, Telecommunications Systems, Cybersecurity, Programming

Aligarh Institute of Technology

Diploma of Associate Engineer, Computer Information Technology — 2020 – 2023

Army Public School

Matriculation — 2014 – 2020

CERTIFICATIONS & TRAINING

- English for Career Development — MOOC
- Self-Directed AI/ML Study — Ongoing
  - Python for ML, ML fundamentals, AI web app development, AI API integration

CORE STRENGTHS

Self-directed learning • Problem-solving • Analytical thinking • Systems thinking • Adaptability • Commitment to continuous improvement • Human-centered AI
